Introduction – Why Amateur Astronomy? .....1

## Part I – The Equipment

1 Optical Fundamentals .....5  
2 Buying a Commercial Telescope .....19  
3 Navigating the Rotating Spherical Sky .....25  
4 “Go To” Telescopes and Mountings .....33  
5 Digicams and Video Astronomy .....55  
6 Cooled CCD Cameras .....85  
7 Image-Processing Software .....111

## Part II – The People

8 CCD Planetary Imagers .....125  
9 Supernova Discoverers .....153  
10 Deep-Sky Perfectionists .....169  
11 Cataclysmic-Variable Observers and Gamma Ray Burster Hunters .....185  
12 Saving the World: Near-Earth Object Chasers .....199  
13 Armchair Comet Hunters .....207  
14 Backyard Spectroscopists .....213  
Appendix: Useful Web Page URLs and Equipment Suppliers .....221  
Index .....227
