Table of Contents

Foreword ..... **V**

Dedications ..... **VII**

Preface ..... **IX**
Motivation for this Book IX
Mission Statement IX
Who Should Read this Book? X
The Perspectives Metaphor X
Non-Goals X
Approach XI
Outline to the Book Structure XII
Prerequisite Skills XIV
Notational Conventions XV
About the Authors XVI

Table of Contents ..... **XVII**

Acknowledgements ..... **XXV**

List of Abbreviations ..... **XXVII**

1 The Business Perspective **1**
1.1 The Sponsor's View … and a Few Other Opinions 1
1.2 Web Services – Holy Grail or Déjà Vu? 2
1.2.1 Business Drivers and Benefits 2
1.2.2 Requirements for Application-to-Application Communication 4
1.2.3 Additional Advantages 8
1.2.4 Litmus Test (a.k.a. Applicability Filter) 10
1.3 Usage Scenarios 12
1.3.1 Enterprise Application Integration (EAI) 13
1.3.2 Business-to-Business (B2B) 15
1.3.3 Common Services 17
1.3.4 Miscellaneous Scenarios 18
1.4 Potential Inhibitors 21
1.4.1 Over-Enthusiastic Expectations 21

1.4.2 Goal Conflicts ... 22
1.4.3 Skepticism about New Technology ... 22
1.4.4 Security and Performance Concerns ... 23
1.4.5 Logistical and Organizational Issues ... 24
1.4.6 Skill Deficiencies ... 24
1.4.7 Roll-Your-Own (RYO) Temptation ... 25
1.4.8 So Do the Inhibitors Really Inhibit Us? ... 25
1.5 Introduction to the Case Study ... 26
1.5.1 Background Information ... 26
1.5.2 The Business Problem ... 26
1.5.3 Solution Outline ... 27
1.6 Summary ... 28
1.6.1 Key Messages ... 28
1.6.2 Where to Find More Information ... 30
1.6.3 What's Next ... 30

2 The Training Perspective ... 31
2.1 The Trainer's View … And What the Trainees Think ... 31
2.2 Web Services Concepts in a Nutshell ... 33
2.2.1 Roles and Relationships ... 33
2.2.2 A First Look at the Case Study Solution ... 35
2.2.3 Where to Go from Here ... 35
2.3 XML, XML Namespaces and XML Schema ... 36
2.3.1 An XML Overview ... 36
2.3.2 XML Namespaces ... 48
2.3.3 XML Schema ... 53
2.3.4 Summary and Next Steps ... 74
2.4 Understanding SOAP ... 75
2.4.1 The SOAP Message Format ... 77
2.4.2 The SOAP Section 5 Encoding ... 87
2.4.3 SOAP Communication Styles ... 98
2.4.4 Summary and Next Steps ... 102
2.5 Understanding WSDL ... 104
2.5.1 The WSDL Building Blocks ... 104
2.5.2 The Containment Structure of a WSDL Document ... 109
2.5.3 The Logical Relationships between WSDL Elements ... 121
2.5.4 The SOAP Binding ... 121
2.5.5 Summary and Next Steps ... 129
2.6 Understanding UDDI ... 131
2.6.1 The UDDI Registry Structure ... 132
2.6.2 Linking WSDL Documents to a UDDI Registry ... 140
2.6.3 A Brief UDDI API Overview ... 145
2.6.4 Private versus Public UDDI Registries ... 149
2.6.5 Summary ... 150

2.7 Summary ... 152
2.7.1 Key Messages ... 152
2.7.2 Where to Find More Information ... 153
2.7.3 What's Next ... 154

3 The Architecture Perspective ... 155
3.1 The Architect's View ... 155
3.2 Introduction to Web Services Architectures ... 156
3.2.1 Motivation ... 156
3.2.2 Introduction to the W3C Web Services Architecture ... 160
3.2.3 Service-Oriented Architecture and Java ... 167
3.3 Web Services Principles and Patterns ... 173
3.3.1 General Architectural Principles and Design Patterns ... 173
3.3.2 Business Patterns ... 177
3.3.3 Architectural Patterns ... 180
3.4 Architectural Decisions ... 188
3.4.1 Service Modeling: WSDL and XML Schema ... 189
3.4.2 Service Messaging: SOAP ... 191
3.4.3 Service Matchmaking: UDDI and WSIL ... 196
3.4.4 General Decisions ... 199
3.4.5 Software Architecture for the Case Study ... 204
3.5 Non-Functional Requirements (NFRs) ... 207
3.5.1 Performance ... 207
3.5.2 Scalability ... 209
3.5.3 Availability ... 210
3.5.4 Robustness ... 210
3.5.5 Portability ... 211
3.6 Gaps and Countermeasures ... 212
3.6.1 The XML Language Binding and Encoding Maze ... 212
3.6.2 Security ... 222
3.6.3 Web Service Management ... 227
3.6.4 Transactional and Context Semantics ... 229
3.6.5 Process Orchestration and Workflow ... 229
3.7 Frequently Asked Questions ... 231
3.8 Summary ... 238
3.8.1 Key Messages ... 238
3.8.2 Where to Find More Information ... 240
3.8.3 What's Next ... 240

4 The Development Perspective ... 241
4.1 A Developer's View ... 241
4.2 Introduction to Developing Web Services in Java ... 245
4.2.1 IBM Development Tools Supporting Web Services ... 245
4.2.2 Getting Started with Eclipse and WebSphere Studio ... 249

4.2.3 Selecting a Web Services Implementation 250
4.2.4 Conclusions 257
4.3 Preparing the Sample Application 259
4.3.1 Background to the Sample 259
4.3.2 Current Implementations 261
4.3.3 Constructing the New Applications 262
4.3.4 Configuring the Sample Application 266
4.3.5 Summary 268
4.4 Building rpc/encoded Services from Java 269
4.4.1 Introduction 269
4.4.2 Building EJB Web Services with Apache SOAP 271
4.4.3 Building EJB Web Services with JAX-RPC and JSR 109 282
4.4.4 Conclusions 293
4.5 Building Web Service Clients 294
4.5.1 Introduction 294
4.5.2 Web Service Clients using Apache SOAP 295
4.5.3 Web Service Clients using JAX-RPC and JSR 109 301
4.5.4 Conclusions 313
4.6 Building rpc/encoded Services from WSDL 314
4.6.1 Introduction 314
4.6.2 Creating Web Services from WSDL using Apache SOAP 315
4.6.3 Creating Web Services from WSDL using JAX-RPC/JSR 109 .. 321
4.6.4 Conclusions 328
4.7 Programmatic Access to WSDL 329
4.7.1 Introduction to Working with WSDL in Java 329
4.7.2 Creating JWSDL Clients with Apache SOAP 331
4.7.3 Creating JWSDL Clients with JAX-RPC and JSR 109 334
4.7.4 Conclusions 335
4.8 Using WS-Inspection to Build Service Indices 336
4.8.1 Introduction to Using WS-Inspection from Java 336
4.8.2 Using WS-Inspection with Apache SOAP 337
4.8.3 Using WS-Inspection with JAX-RPC and JSR 109 344
4.8.4 Conclusions 345
4.9 Using UDDI 346
4.9.1 Introduction to UDDI Access from Java and Browsers 346
4.9.2 Using UDDI with Apache SOAP 348
4.9.3 Using UDDI with JAX-RPC and JSR 109 354
4.9.4 Conclusions 357
4.10 Using Other Web Services Bindings 358
4.10.1 Introduction to the Web Services Invocation Framework 358
4.10.2 Working with WSIF and Apache SOAP 360
4.10.3 Using WSIF with JAX-RPC and JSR 109 364
4.10.4 Conclusions 367

4.11 Creating a document/literal Service from WSDL 368
4.11.1 Introduction 368
4.11.2 Defining the document/literal Service Interface 369
4.11.3 Document/literal Services with Apache SOAP 372
4.11.4 Document/literal Services with JAX-RPC and JSR 109 377
4.11.5 Conclusions 381
4.12 Creating a document/literal Service Client 383
4.12.1 Introduction 383
4.12.2 Document/literal Clients with Apache SOAP 384
4.12.3 Document/literal Clients with JAX-RPC and JSR 109 388
4.12.4 Conclusions 391
4.13 Orchestrating Web Services 392
4.13.1 Introduction 392
4.13.2 Creating Services and the Public Service Interface 393
4.13.3 Completing the Process Implementation 397
4.13.4 Other Features in the Process Editor 402
4.13.5 Deploying the Orchestrated Service 404
4.13.6 Testing the Orchestrated Service 408
4.13.7 Conclusions 409
4.14 Using Attachments with SOAP 410
4.14.1 Introduction 410
4.14.2 Creating SOAP Attachments with Apache SOAP 411
4.14.3 Creating SOAP Attachments with JAX-RPC and JSR 109 414
4.14.4 Conclusions 416
4.15 Using SOAP Headers 417
4.15.1 Introduction 417
4.15.2 Implementing Headers with Apache SOAP 417
4.15.3 Implementing Headers with JAX-RPC and JSR 109 420
4.15.4 Conclusions 426
4.16 Exporting the Completed Sample 427
4.17 Summary 429
4.17.1 Key Messages 429
4.17.2 Where to Find More Information 430
4.17.3 What's Next 431

5 The Operational Perspective 433
5.1 The System Administrator's View 433
5.2 System Architectures for Web Services Solutions 435
5.2.1 Introduction 435
5.2.2 Basic Topology 437
5.2.3 Standalone Topology 437
5.2.4 Placement of Additional Components 441
5.2.5 Clustered and Managed Topology 443
5.2.6 System Architecture for PremierQuotes 449
5.2.7 Summary 450

5.3 Deploying Web Services ... 452
5.3.1 Introduction to WebSphere Application Server ... 452
5.3.2 Deployment Overview ... 454
5.3.3 Configuring the Application Server ... 455
5.3.4 Deploying Services ... 460
5.3.5 Working with the Private UDDI Registry ... 464
5.3.6 Testing the Service ... 466
5.3.7 Clustering ... 467
5.3.8 Working with the IBM HTTP Server ... 471
5.4 Securing a Web Services Implementation ... 474
5.4.1 Security Threats and Countermeasures ... 474
5.4.2 WS-Security ... 476
5.4.3 Securing Web Services with HTTPS and SSL ... 484
5.5 The Web Services Gateway ... 501
5.5.1 Introduction ... 501
5.5.2 Configuring the Gateway ... 502
5.5.3 Deploying a Web Service to the Gateway ... 504
5.5.4 Updating the Client and Testing ... 505
5.6 Summary ... 509
5.6.1 Key Messages ... 509
5.6.2 Where to Find More Information ... 509
5.6.3 What's Next ... 509

6 The Engagement Perspective ... 511
6.1 The Project Manager's View ... 511
6.2 Planning a Web Services Development Project ... 512
6.2.1 Step 1: Identify Business Need ... 512
6.2.2 Step 2: Outline Requirements and High Level Design ... 514
6.2.3 Step 3: Plan and Staff the Project ... 515
6.2.4 Step 4: Run the Project ... 518
6.2.5 Success Factors and Elements of Risk ... 519
6.2.6 A Final Look at the Case Study ... 522
6.2.7 Wrap Up ... 523
6.3 Lessons Learned and Design Advice ... 524
6.3.1 Lessons Learned ... 524
6.3.2 Best Practices ... 527
6.4 Summary ... 535
6.4.1 Key Messages ... 535
6.4.2 Where to Find More Information ... 538
6.4.3 What's Next ... 538

7 The Future Perspective ... 539
7.1 An Optimistic and a Pessimistic View ... 539
7.2 Emerging Specifications ... 540
7.2.1 SOAP Version 1.2 ... 540

7.2.2 WSDL Version 1.2 ... 542
7.2.3 UDDI Version 3.0 ... 543
7.2.4 J2EE and Web Services ... 545
7.2.5 Business Process Execution Language for Web Services ... 546
7.2.6 Other Specification Work ... 547
7.3 Web Services and Grid Computing ... 548
7.3.1 Motivation for Grid Computing ... 548
7.3.2 What is a Grid? ... 549
7.3.3 Grid Services ... 550
7.3.4 A Services Execution Platform ... 551
7.3.5 A Few Grid Services Examples ... 552
7.3.6 Summary and Outlook ... 553
7.4 A Quick Look at the Semantic Web ... 554
7.4.1 The Semantic Web "Stack" ... 554
7.4.2 Resource Description Framework (RDF) ... 555
7.4.3 Web Ontology Language (OWL) ... 557
7.4.4 The Semantic Web and Web Services ... 559
7.4.5 Where to Find More Information ... 560
7.5 Concluding Thoughts ... 561
7.5.1 A Final Look at Specifications and Implementations ... 561
7.5.2 Coming Up ... 562
7.5.3 Web Services – Holy Grail or Déjà Vu? ... 565
7.5.4 Where to Find More Information ... 566
7.5.5 What's Next ... 566

A Creating the Sample Applications ... 567
A.1 Building the PremierQuotes Policy System ... 567
A.1.1 Configuring a Cloudscape Environment ... 567
A.1.2 Creating a New Database ... 568
A.1.3 Creating the Project Structures in WebSphere Studio ... 570
A.1.4 EJB-RDBMS Mapping Approaches ... 570
A.1.5 Creating the Database Schema ... 571
A.1.6 Generating Entity EJBs from the Database Schema ... 575
A.1.7 Creating a WebSphere Server to Deploy the Application ... 578
A.1.8 Binding the EJBs to the New Data Source ... 579
A.1.9 Populating the Database with Sample Data ... 580
A.1.10 Data for PremierQuotes Cloudscape Database ... 580
A.2 Updating the PremierQuotes Policy System ... 582
A.2.1 Completing the Entity EJB Implementations ... 582
A.2.2 Creating the Session EJB ... 583
A.2.3 Creating Value Objects to Return from the Session Bean ... 583
A.2.4 Inserting the Business Logic ... 585
A.2.5 Creating a Local EJB Reference to the Address Entity ... 588
A.2.6 Deploying the Application ... 589
A.2.7 Testing the New PremierQuotes Policy System ... 589

A.3 Building the DirtCheap Policy System 593
A.3.1 Creating the New Database 593
A.3.2 Creating the Project Structure in WebSphere Studio 593
A.3.3 Copying a Database Schema 593
A.3.4 Defining a New JDBC Data Source 594
A.3.5 Deploying the New Enterprise Application 595
A.3.6 Populating the Database with Sample Data 595
A.3.7 Data for DirtCheap Insurance Cloudscape Database 595
A.4 Updating the DirtCheap Policy System 597
A.4.1 Building JDBC Wrappers 597
A.4.2 Defining a JDBC Resource Reference 600
A.4.3 Testing the New DirtCheap Insurance Policy System 601
A.5 Configuring the WebSphere SDK for Web Services 603
A.5.1 Setting up the Command Line Environment 603
A.5.2 Updating the Server Classpath 604
A.5.3 Changing the Default Classloading Behavior 604
A.5.4 Resolving Problems with the Default UDDI Data Source 604
A.5.5 Changing Java 2 Security Privileges for Libraries 605
A.5.6 Configuring the Application Server 605
A.5.7 Installing the Universal Test Client 609
A.5.8 Script to Remove JDBC Providers 610

B Java to XML Mapping Reference 611
B.1 Apache SOAP 2.3 Mappings 611
B.2 JAX-RPC Mappings 613

C Appendix C# 615
C.1 Overview to Building .NET Web Service Clients 615
C.2 Developing rpc/encoded Clients in C# 618
C.3 Developing document/literal Clients in C# 623
