HYDRAULIC BEHAVIOUR

Laboratory Experiments and Simulations on the Significance of Non-Equilibrium Effect in Capillary Pressure-Saturation Relationship	3
<i>Hassanizadeh, S. M., Oung, O., and Manthey, S.</i>	
Determination of hydro-mechanical Properties of Sand.....	15
<i>Lins, Y. and Schanz, T.</i>	
Column test apparatus for the inverse estimation of soil hydraulic parameters under defined stress condition.....	33
<i>Scheuermann, A., Montenegro, H., and Bieberstein, A.</i>	
Water permeability of unsaturated compacted kaolin	45
<i>Peroni, N., Fratalocchi, E., and Tarantino, A.</i>	
Moisture retention curve in landfilled waste	59
<i>Kazimoglu, Y. K., McDougall, J. R., and Pyrah, I. C.</i>	
The pF-curve of fine-grained soils at high pore water suction	69
<i>Schick, P.</i>	

STRUCTURAL CHARACTERIZATION – MEASUREMENT OF SUCTION

Influence of microstructure on geotechnical properties of clays	89
<i>Schmitz, R. M., Schroeder, C., and Charlier, R.</i>	
Suction induced by static compaction	101
<i>Tombolato, S., Tarantino, A., and Mongiovì, L.</i>	
Suction of compacted residual soils	111
<i>Tripathy, S., Leong, E. C., and Rahardjo, H.</i>	
Creation of artificial loess soils	123
<i>Zourmpakis, A., Boardman, D. I., and Rogers, C. D. F.</i>	
Analysis of the mechanical response of an artificial collapsible soil.....	135
<i>Medero, G.M., Schnaid, F., Gehling, W.Y.Y., and Gallipoli, D.</i>	
Fabric Evolution of an Unsaturated Compacted Soil during Hydromechanical loading	147
<i>Cuisinier, O. and Laloui, L.</i>	

Measurement of osmotic suction using the squeezing technique	159
<i>Peroni, N. and Tarantino, A.</i>	
The use of different suction measurement techniques to determine water retention curves.....	169
<i>Boso, M., Romero, E., and Tarantino, A.</i>	
Measurement of Suction of Thick Textured Soil using Filter Paper Method and Equivalent Tensiometer – EQT.....	183
<i>Mahler, C. F. and Mendes, C. A. R.</i>	
Laboratory measurement of matric suction in pyroclastic soil using vacuum and high-suction tensiometers	193
<i>Nicotera, M. V. and Tarantino, A.</i>	
EXPANSIVE SOILS	
Volume Change Behaviour of Fine Grained Soils	209
<i>Sridharan, A.</i>	
Volume change behaviour of cohesive soils	227
<i>Dobrowolsky, M.</i>	
Swelling Pressures and Wetting-Drying Curves of a Highly Compacted Bentonite-Sand Mixture	241
<i>Agus, S. S. and Schanz, T.</i>	
Results and interpretation of bentonite resaturation experiments with liquid water and water vapour	257
<i>Kröhn, K.-P.</i>	
MECHANICAL BEHAVIOUR	
Shear strength of unsaturated bentonite buffer material	273
<i>Farouk, A., Kos, J., and Lamboj, L.</i>	
Evaluation of Yielding in Unsaturated Clays Using an Automated Triaxial Apparatus with Controlled Suction	285
<i>Blatz, J., Anderson, D., Graham, J., and Siemens, G.</i>	
A triaxial device for unsaturated sand – New Developments.....	301
<i>Lauer, C. and Engel, J.</i>	
Undrained Isotropic Compression of Soil.....	315
<i>Oostveen, J. P.</i>	

Hydro-mechanical behaviour of clayey silt under isotropic compression	331
<i>Buenfil, C., Romero, E., Lloret, A., and Gens, A.</i>	
The concept of “apparent” Compression Index.....	343
<i>Bardanis, M. and Kavvasdas, M.</i>	
Behaviour of unsaturated cohesive soils subjected to cyclic loads.....	355
<i>Becker, Th. and Li, T.</i>	
Remarks on consolidation in unsaturated soils from experimental results	373
<i>Ausilio, E. and Conte, E.</i>	
Prediction and modeling of tensile stresses and shrinkage	383
<i>Baumgartl, Th.</i>	
Tensile Strength of Compacted Clays	395
<i>Heibroek, G., Zeh, R.M., and Witt, K. J.</i>	
Fine Fissuring of Clay Fill Materials for Flood Defence Embankments	413
<i>Dyer, M. and Coulson, B.</i>	
Laboratory investigation of the virgin drying of the Corinth Marl	421
<i>Bardanis, M. and Kavvasdas, M.</i>	
APPLICATIONS	
From experimental evidence towards the assessment of weather-related railway embankment hazards.....	435
<i>Gitirana, G. Jr. and Fredlund, D. G.</i>	
Large scale hill creep in cohesive sediments: A field and model study.....	469
<i>Zehe, E., Lindenmaier, F., and Ihringer, J.</i>	
The effect of soil suction in stability of partially submerged slopes.....	483
<i>Bellezza, I. and Fratolocchi, E.</i>	
Effects of unsaturation on the stability of a moraine slope.....	497
<i>Simeoni, L., Tarantino, A., and Mongiovì, L.</i>	
A large physical Mock-Up model for investigating engineered barriers	509
<i>Pacovský, J.</i>	
Experimental testing and modelling of a Design for HLW Disposal through a Large Scale Mock-Up	521
<i>Verstricht, J., Li, X. L., and Bernier, F.</i>
