# Contents

<b>Chapter 1</b>	<b>Flight</b> . . . . .	<b>1</b>
1.1	Energetic Cost of Flight . . . . .	1
1.2	Flight Speed and Endurance . . . . .	9
1.3	Flight at High Altitude . . . . .	10
<b>Chapter 2</b>	<b>Development</b> . . . . .	<b>13</b>
2.1	General Considerations . . . . .	13
2.2	Bronchial (Airway) System . . . . .	15
2.3	Air Sacs . . . . .	34
2.4	Pulmonary Vasculature . . . . .	35
2.4.1	Hematogenesis . . . . .	36
2.4.2	Vasculogenesis and Angiogenesis . . . . .	45
2.5	Blood–Gas Barrier (BGB) . . . . .	48
2.6	Molecular and Genetic Aspects in Lung Development . .	53
2.6.1	General Observations . . . . .	53
2.6.2	Fibroblast Growth Factors (FGFs) . . . . .	55
2.6.3	Vascular Endothelial Growth Factor (VEGF) . . . . .	59
2.6.4	Wnt Genes and Signaling . . . . .	61
<b>Chapter 3</b>	<b>Qualitative Morphology</b> . . . . .	<b>65</b>
3.1	General Observations . . . . .	65
3.2	Lung . . . . .	66
3.3	Airway (Bronchial) System . . . . .	73
3.3.1	Primary Bronchus . . . . .	73
3.3.2	Secondary Bronchi . . . . .	75
3.3.3	Parabronchi (Tertiary Bronchi) . . . . .	78
3.3.4	Atria, Infundubulae, and Air Capillaries . . . . .	82
3.4	Blood–Gas Barrier . . . . .	95
3.5	Surfactant . . . . .	95
3.6	Air Sacs . . . . .	96

3.6.1	Topographical and Structural Morphology . . . . .	96
3.6.2	Ostia . . . . .	98
3.6.3	Cytoarchitecture of the Wall of Air Sacs . . . . .	99
3.7	Paleopulmo and Neopulmo . . . . .	100
3.8	Pulmonary Vasculature . . . . .	101
3.9	Arrangement of the Structural Components for Gas Exchange . . . . .	104
3.10	Cellular Defenses of the Lung . . . . .	107
3.11	Control of Air Flow . . . . .	116
<b>Chapter 4</b>	<b>Quantitative Morphology (Morphometry) . . . . .</b>	<b>125</b>
4.1	General Observations . . . . .	125
4.2	Volume of the Lung . . . . .	128
4.3	Respiratory Surface Area . . . . .	145
4.4	Thickness of the Blood–Gas Barrier . . . . .	149
4.5	Pulmonary Capillary Blood Volume . . . . .	151
4.6	Modeling a Gas Exchanger: Integrative Morphometry .	153
4.6.1	General Principles . . . . .	153
4.6.2	Modeling the Avian Lung . . . . .	154
4.6.3	Pros and Cons of Pulmonary Modeling . . . . .	157
<b>Chapter 5</b>	<b>Comparative Respiratory Morphology . . . . .</b>	<b>159</b>
5.1	General Observations . . . . .	159
5.2	Comparison of the Structure of the Avian Respiratory System with Those of Some Other Animals . . . . .	161
5.2.1	Dipnoan Lung . . . . .	161
5.2.2	Amphibian Lung . . . . .	164
5.2.3	Reptilian Lung . . . . .	165
5.2.4	Insectan Tracheal System . . . . .	168
5.3	Conclusions . . . . .	173
<b>References</b>	. . . . .	<b>175</b>
<b>Subject Index</b>	. . . . .	<b>203</b>
