Preface ..... **V**
Motivation for this Book V
Who Should Read this Book? VI
Outline to the Book Structure VII
Prerequisite Skills VIII
Acknowledgements VIII
About the Author IX

Contents ..... **XI**

1 What is Ajax? **1**
1.1 Introduction 1
1.2 What is XMLHttpRequest? 2
1.3 XMLHttpRequest Object Properties 2
1.3.1 The readyState Property 3
1.3.2 The onreadystatechange Property 3
1.3.3 The responseText Property 3
1.3.4 The responseXML Property 4
1.3.5 The status Property 4
1.3.6 The statusText Property 4
1.4 XMLHttpRequest Object Methods 5
1.4.1 The abort() Method 5
1.4.2 The open() Method 5
1.4.3 The send() Method 5
1.4.4 The setRequestHeader() Method 6
1.4.5 The getResponseHeader() Method 6
1.4.6 The getAllResponseHeaders() Method 6
1.5 Sending an Ajax Request 7
1.6 Processing an Ajax Request 8
1.7 JDeveloper Integrated JavaScript Editor 10
1.8 Summary 17

2 Developing an Ajax Web Application 19
2.1 Introduction 19
2.2 Setting the Environment 19
2.3 Sending an Ajax Request 29
2.4 Processing an Ajax Request on the Server Side 31
2.5 Processing an Ajax Response 35
2.6 Summary 44

3 Less JavaScript with Prototype 45
3.1 Introduction 45
3.2 Overview of Prototype 45
3.2.1 $() function 45
3.2.2 $F() function 46
3.2.3 $A() function 46
3.2.4 $H() function 46
3.2.5 $R() function 46
3.2.6 $w() Function 47
3.2.7 Try.these function() 47
3.2.8 Ajax.Request Class 47
3.2.9 Ajax.Updater Class 49
3.2.10 Ajax.PeriodicalUpdater Class 50
3.3 Installing Prototype 50
3.4 Configuring Prototype in AJAX Web Application 51
3.5 Updating a DOM Element with Ajax.Updater 58
3.6 Summary 60

4 Ajax with Java-GWT 61
4.1 Introduction 61
4.2 Installing GWT 61
4.3 Creating a GWT Application 62
4.4 GWT Class Libraries 75
4.5 Creating a Form Validation Ajax Application 77
4.6 Summary 87

5 Ajax with Java-DWR 89
5.1 Introduction 89
5.2 Setting the Environment 89
5.3 Creating a DWR Application 90
5.4 Deploying and Running the DWR Application 103
5.5 Summary 106

6 Ajax without JavaScript – AjaxTags 107
6.1 Introduction 107
6.2 Setting the Environment 107
6.3 Overview of AjaxTags 111
6.4 Installing AjaxTags 113
6.5 Validating a Form with AjaxTags 114
6.6 Summary 128

7 Ajax with JSF-Ajax4jsf 129
7.1 Introduction 129
7.2 Overview of Ajax4jsf 129
7.2.1Ajax Filter 130
7.2.2 Ajax Action Components 130
7.2.3 Ajax Containers 130
7.2.4 JavaScript Engine 130
7.2.5 Ajax4jsf Component Library 130
7.3 Setting the Environment 132
7.4 Creating an Ajax4jsf Application 133
7.5 Sending an Ajax Request 145
7.6 Processing an Ajax Request 148
7.7 Processing the Ajax Response 154
7.8 Summary 158

8 Ajax with PHP-Xajax 159
8.1 Introduction 159
8.2 Setting the Environment 160
8.3 Integrating PHP with JDeveloper 161
8.4 Creating a Database Table 164
8.5 Sending an Ajax Request 167
8.6 Processing an Ajax Request 169
8.7 Processing the Ajax Response 172
8.8 Summary 179

9 RSS Feed with Ajax 181
9.1 Introduction 181
9.2 Overview of Google Ajax Feed API 182
9.3 Setting the Environment 184
9.4 Receiving a RSS Feed 186
9.5 Receiving Multiple Feeds 191
9.6 Summary 194

10 Web Search with Ajax 195
10.1 Introduction 195
10.2 Setting the Environment for Google Search 195
10.3 Overview of Google Ajax Search API 197
10.4 Creating a Google Ajax Web Search Application 199
10.5 Web Search with Yahoo Web Services 203
10.6 Creating an Ajax Web Search Application for Yahoo 205
10.7 Sending an Ajax Request with Yahoo Search Web Services 210
10.8 Running the Yahoo Ajax Web Search Application 217
10.9 Summary 219
