

# Contents

<b>Material Properties of Alginates</b> .....	1
Ivan Donati and Sergio Paoletti	
<b>Alginate Production: Precursor Biosynthesis, Polymerization and Secretion</b> .....	55
Bernd H.A. Rehm	
<b>Bacterial System for Alginate Uptake and Degradation</b> .....	73
Wataru Hashimoto, Yukie Maruyama, Takafumi Itoh, Bunzo Mikami, and Kousaku Murata	
<b>Enzymatic Alginate Modification</b> .....	95
Helga Ertesvåg, Svein Valla, and Gudmund Skjåk-Bræk	
<b>Alginate Gene Regulation</b> .....	117
Dennis E. Ohman	
<b>Role of Alginate in Bacterial Biofilms</b> .....	135
Larry J. Halverson	
<b>Microbial Production of Alginates: Physiology and Process Aspects</b> .....	153
Wael Sabra and An Ping Zeng	
<b>Alginate-Based Blends and Nano/Microbeads</b> .....	175
Kamalesh Prasad and Jun-ichi Kadokawa	
<b>Applications of Alginates in Food</b> .....	211
Iain A. Brownlee, Chris J. Seal, Matthew Wilcox, Peter W. Dettmar, and Jeff P. Pearson	

<b>Alginate and Its Comonomer Mannuronic Acid: Medical Relevance as Drugs</b> .....	229
Abbas Mirshafiey and Bernd H.A. Rehm	
<b>Index</b> .....	261
